

OEM 54610-C1000 Auto Strut Mount Frame For Hyundai Grandeur H-1 Ix55 Santa Fe

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54610-C1000
- Minimum Order Quantity: 10 PCS
- Price: USD3.57 ~ USD4.58
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Product Name: Auto Strut Mount
- Material: Rubber And Steel
- Warranty: 24 Months
- Car Make: For Hyundai
- Packing: Any Box According To Customers' Requirement
- OEM: 54610-C1000
- Highlight: OEM Auto Strut Mount, Auto Strut Mount Frame , 54610-C1000

Product Description

54610-C1000 Strut Mount for HYUNDAI GRANDEUR H-1 ix55 SANTA FE II KIA CARNIVAL III 54610 C1000

Product Description:

A strut mount, sometimes referred to as a suspension mount or a shock mount, is an essential part of a vehicle's suspension system. It serves the purpose of providing a connection point between the strut assembly and the frame or body of the vehicle. The strut mount is especially key in providing support and stability, as well as effectively reducing any vibrations in the vehicle's suspension system.

Features:

Structural Support: Our strut mount serves as a solid connection point between the strut assembly and the vehicle's chassis or body. This provides a secure and stable attachment, enabling the strut assembly to absorb shocks, impacts and vibrations from the road surface effectively.

Vibration Damping: Our strut mount features top-quality rubber or polyurethane bushings that are capable of dampening vibrations and reducing noise caused by the suspension system. Such bushings absorb vibrations and reduce their transmission to the vehicle's body, making journeys more comfortable and quieter.

Load Distribution: Our strut mount evenly distributes the load and forces exerted onto the strut assembly. This reduces stress on any single point, leading to an even weight distribution and a heightened level of stability and performance within the suspension.

Alignment Maintenance: Our strut mount enables controlled movement and articulation of the strut assembly, helping to keep suspension alignment correct. This allows for even tire wear, improved handling, and greater vehicle stability in the long-term.

Durability and Longevity: Our strut mount is constructed with premium components and put through rigorous testing to guarantee its longevity and dependability. It is designed to endure the usual stress of daily driving, providing reliable support for the suspension system in the long run.

Support and Services:

Auto Strut Mount Technical Support and Service

At Auto Strut Mount, we understand that your car is an important part of your life. We are here to provide you with the technical support and service you need to keep your car running smoothly.

Our team of experienced technicians is available to answer questions about installation, troubleshooting, repair, and maintenance of your Auto Strut Mount products. We can help you identify the right parts and services to fit your needs, and provide detailed instructions and guidance on how to get the most out of your car.

We also offer extended warranty support and emergency repair services for our products. If you ever need help, just call, email, or chat with us and one of our technicians will be happy to assist you.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
